

The Primordial Language - Confirmation of the Divine Creator

Greetings readers. I truly feel you will enjoy this book over and over again as I have and also understand it will leave a very warm impression on you. You will find it to also challenge what you were taught in childhood religion and even history! This very fine high quality author is of very stern research and religious understanding. Anita Meyer does not just write books she is a inspiration to dig deeper and deeper in her book and other places for the truths hidden for so long for information. Her understanding of the math's, old writings and many aspects of religions/cults, the intense research truly is shown on each page you read as the solid information is shown from many angles! This book so truly was not done by a amateur but an seasoned researcher into truths. This author who believed in what she was doing to all ends. One who truly ground things down till the truths were left and revealed. I rate this book a solid five stars!

My special dedication and thanks:

I would like to give special thanks to my loving parents, Judy and Stewart, though unsuspectingly, you both were necessary components to instill within me the beliefs that I carry today, starting from a young age to set into motion the forthcoming of this book.

To my charismatic lifelong sweetheart and husband Curt, in the making of this book - five years and 500+ pages later - you are the one (the flowing fountain) who has elevated and challenged me in my thinking. Some might say you were the ghostwriter, but you are really the ghost rider!

To Joshua my alter ego son, you were the conduit by which I was first impelled and propelled to start writing this book. Although you are a slow work in progress, I know you are going to eventually do great things - G-d has His hand on you! In addition, to Rachael my fun-loving and charming daughter, beauty, smartness and talent are within you... there has never been a step you have walked alone - nor will there ever be.

I would also like to give special thanks to Michael J. Kiser (and staff) the book publisher of "In Search Of The Universal Truth" (ISOTUT) who made the publishing of this book possible. Thank You!

Everyone mentioned were necessary threads woven into the fabric of my life, and for that I give G-d great praise! Knowing that great works are happening (according to His will), not a day goes by that I can live without His all consuming passion inside me!

The Primordial Language - Confirmation of the Divine Creator

INTRODUCTION...

This book is an interlocking mesh between (1) religion, (2) spirituality and (3) science. Whereupon reading this book one may be taken aback to learn and gain the knowledge that the three are very much interrelated.

Not only are the three interrelated, but this book goes beyond this unity to present beyond-belief evidence that confirms as well as illustrates a creator in action. Some may not make the connection to various things I talk about in this book, and therefore simply lose interest. While others might find it as ground breaking evidence that leads to an elevated or higher-minded aspect of life. But I hope that for many it will be an uplifting and unstoppable book from start to finish and worth keeping or passing onto another person. It is for those who are on a quest for ageless answers - but surely I tell you, it is for ALL walks of life, young and old, Jew, Christian, Muslim to name a few, even the unbeliever (the atheist), as well as the scientifically minded person - to find meaning in life and to strive for something much more divine and significant.

In the same breath, it is also an inward journey in pursuit of the source of one's being.

I anticipate that there will of course be some who will oppose my religious approach as they read. However, ultimately (in the end), some will appreciate it as heralding the most important central (and highest) secret knowledge that directly links us to G-d and the universe BY WAY OF A "PRIMORDIAL LANGUAGE" that has intentionally disguised itself and eluded us so that the material aspect of all life should not have its existence nullified. In truth, it is the mechanism that is essential to the whole of creation. In revealing this, I will let the evidence speak for itself as the scientific point of view is melded with the religious aspect.

This knowledge is not for the dim at heart. Whichever it may be for you, I ask you to please read the entirety of this book before you can make a worthy assessment of it. Contained within, one may obtain a knowledge that will miraculously transform the soul in ways that might not at first be perceived, but will later discover it as a gift that helps us navigate this thing called life. It is a story that has never been told in such a way before that its impact may be a life altering experience! It is a story that's filled with such wisdom (information, facts and data) that goes beyond any/all text books, leaving no question answered inadequately, insufficiently or unsatisfactorily. Its physical truth is so magnificent, awe-inspiring and overwhelming, that soon all the words will fade, the parchment will crumble (figuratively), and this book will drop until all that's left is the vaporous remains of spiritual completeness.

I have also written this book with the critics in mind, as well as those that are impassioned by twisting and spinning the words (interpretations and terminology) of others. In spite of this, these people all happen to be my best allies. Additionally as anticipated and intended, there are those that will blaspheme this book with any bad exposure or publicity they can muster up. Either way, ANY PUBLICITY IS GOOD PUBLICITY as there is no such thing as bad publicity. As the old saying goes: **Beware the trap of publicity for publicity's sake!** After all, even a bad review gives a bit of write-up in which readers might become intrigued and curious about. In effect, its alluring gravity will invite humankind's innate curiosity, which ultimately in due course, leads virtually to the undeniable reality of G-d.
